Alexander Alexandrov

Senior Full-Stack Developer

Sofia, Bulgaria | alexo.io | hi@alexo.io | LinkedIn | GitHub

Summary

Software developer with 6+ years of experience building web applications and backend APIs. Reaches for Rust when performance and reliability matter most. Writes concise, readable, and performant code.

Programming Languages

Rust, Java, JavaScript, TypeScript, HTML, CSS, ExtendScript.

Key Technologies and Frameworks

React, Redux, Next.js, Node.js, WebAssembly, Dioxus, Spring MVC, PostgreSQL, Docker, AWS, Git.

Experience

Senior Full-Stack Web Developer
Proxiad SEE | Aug 2023 - Present
- Develop front-end applications for a digital publishing suite used by enterprise clients including Carrefour, ZEISS, and Würth.
- Contribute to Java back-end APIs, maintaining coding standards and test coverage.
- Collaborate with UI/UX teams to streamline releases and improve feature turnaround time.

Full-Stack Developer
DXC Technology | Apr 2020 - Aug 2023
- Modernized an enterprise solution by migrating critical components from Java to Rust.
- Developed a Visual Product Modeling System, improving product visualization and user workflows.
- Built a full-stack service to integrate cloud infrastructure into customer-facing solutions.
- Developed features for the BMW Group Vulnerability Tool; optimized PostgreSQL schemas, reducing query time by 90% (from 30s to 3s).

Web Development Intern
Camplight | Sep 2019 - Apr 2020
- Developed a property management web application.
- Wrote reusable UI components.
- Collaborated with mentors on architecture reviews and code quality, delivering production-ready components.

Education and Training

Camplight Academy - *React, JavaScript, TypeScript, Next.js, GraphQL*
MaxPlus - *Java*
Sofia University - *PhD, Theology*
University of Forestry - *M.Eng., Engineering*
High School of Mathematics - *Mathematics*

Certifications

Oracle Certified Associate, Java SE 8 Programmer | Jan 2019

Spoken Languages

Bulgarian - native, **English** - C1, **Italian** - B2, **Russian** - B1, **Greek** - A2

Open Source Projects

Sofos Code - AI coding assistant for the terminal built in pure Rust.
Sofos Web - AI chatbot built with React, Next.js, and MUI, with image analysis and speech-to-text.
Ferrocrypt - CLI and GUI encryption/decryption tool built in Rust and Dioxus.
alexo.io - My website — a full-stack Rust app with a Dioxus/WASM front-end and an axum server.
