Alexander Alexandrov

Sofia, Bulgaria | alexo.io | hi@alexo.io | LinkedIn | GitHub

Summary

Software developer with 6+ years of experience building web applications and backend systems. Full-stack across React, TypeScript, and Java, with Rust when performance and reliability matter most. Known for clean, maintainable code, clear naming, and strong collaboration in low ego teams.

Programming Languages

Rust, Java, JavaScript, TypeScript, HTML, CSS, ExtendScript.

Key Technologies and Frameworks

React, Redux, Next.js, Node.js, WebAssembly, Dioxus, Spring MVC, PostgreSQL, Docker, AWS, Git.

Experience

Proxiad SEE | Aug 2023 - Present
Senior Full-stack Web Developer
- Develop front-end applications for a digital publishing suite used by enterprise clients including Carrefour, ZEISS, and Würth.
- Contribute to Java back-end APIs, maintaining coding standards and test coverage.
- Collaborate with UI/UX teams to streamline releases and improve feature turnaround time.

DXC Technology | Apr 2020 - Aug 2023
Full-stack Developer
- Modernized an enterprise solution by migrating critical components from Java to Rust.
- Developed a Visual Product Modeling Service, improving product visualization and user workflows.
- Built a full-stack service to integrate cloud infrastructure into customer-facing solutions.
- Developed features for the BMW Group Vulnerability Tool; optimized PostgreSQL schemas, reducing query time by 90% (from 30s to 3s).

Camplight | Sep 2019 - Apr 2020
Web Development Intern
- Developed a property management web application.
- Wrote reusable UI components.
- Collaborated with mentors on architecture reviews and code quality, delivering production-ready components.

Education and Training

Camplight - *React, JavaScript, TypeScript, Next.js*
MaxPlus - *Java*
Sofia University - *PhD, Theology*
University of Forestry - *M.Eng., Engineering*
High School of Mathematics - *Mathematics*

Certifications

Oracle Certified Associate, Java SE 8 Programmer | Jan 2019

Spoken Languages

Bulgarian - native, **English** - C1, **Italian** - B2, **Russian** - B1, **Greek** - A2

Open Source Projects

Sofos Code - AI coding assistant for the terminal built in pure Rust.
Sofos Web - AI chatbot built with React, Next.js, and MUI, with image analysis and speech-to-text.
Ferrocrypt - CLI and GUI encryption/decryption tool built in Rust and Dioxus.
alexo.io - My website — a full-stack Rust app with a Dioxus/WASM frontend and an axum server.
