Certifications

Oracle Certified Associate, Java SE 8 Programmer — Jan 2019

Spoken Languages

Bulgarian - native, **English** - C1, **Italian** - B2, **Russian** - B1, **Greek** - A2

Summary

Software developer based in Sofia, BG with 6+ years of experience.
I build web applications and backend systems, mostly across the usual full-stack technologies — and I reach for Rust when performance and reliability matter. I care about clean naming, thoughtful abstractions, and code that's easy to change. I do my best work on collaborative, low-ego teams.
